- An extraordinary loss, low goals for, high goals against ratio compared to the rest of the division (relegated);

- Teams may be promoted or relegated at the discretion of the Football Operations Manager before six completed rounds of competition.

4. Guidelines of Regrades

Generally a team with a perfect win rate combined with a very high goals for and low goals against will be eligible for promotion. Generally, but not limited to a team with an average of five goals per match higher than their oppositions will be considered for promotion.

Considerations will be given for matches played against teams that are considered stronger. Further consideration will be given to matches where a team may be short on players. Other factors and circumstances including the impact on team numbers, byes and re-draws in each grade will also be considered.

5. Points and Impact of Regraded Teams

- Teams that are either promoted or relegated shall be placed in equal fourth position both on competition points and goal difference;
- Matches already played against the regraded team shall be deemed as the result already obtained on the day with the goal difference being decided by:
